ABOUT

Designing is much more than just a job. This is my great passion. Creativity, attention to detail, punctuality, responsibility and a high sense of aesthetics are an indispensable part of my career. Mission: continuous improvement of my competences and new challenges every day.

Farmacia Internazionale

REFERENCE

We have been working with Veronica for many years on various projects: from the creation of websites, to corporate identity, to the design and development of the coordinated image of events and set-ups for very demanding customers (in the Hi-Tech field) such as Adobe, Epson, Akamai, Google etc ...and we couldn't be happier. In Veronica we have found that creativity, elegance and imagination that we had never found in any partner before, in addition to the ability to quickly understand the needs of our customers and to guide us in the development of always original and creative proposals, that make a difference.
