my project which i started when i was 19 in my hometown and its working till now with 3-5 events every year for 5 years straight. our goal was to create open-minded progressive art scene and gather all creative people around most criminal city in Ukraine. In Kryvyi Rih (my hometown). So we made it! I was making strategy, ideology, motion and graphic designs, financist work, decorations, SMM, accountant work, booker work and event stage managment. but 4 years ago i decided to move to Kyiv. We successfully continue to work on that project remotely with huge help from voulonteers.

my second big project is club called «8» (symbol 8 stands for: connection through equality, recycling, infinity and it contains my first project (2+2+2+2). Btw you can see it in logo below)

following these goals in union with my friend we opened it in heart of creative Kyiv city district «Podil», 400m² / 2 floors club was working for 4 month, in that time we made a 20+ events (club nights, exhibitons, special shows) with experimental organization approach (for example we gave up any FC/DC rules, except security ones) we gathered Kyiv underground scene together and developed some well-known artists with still strictly Kyiv underground mostwanted ones, but scheme is not workable without investments, so because of it we decided to close it, so in «8» i was working as: motion + graphic designer, interior designer, accountant, booking manager, strategy, project manager, financist, light manager, bot manager, SMM.
