

# Kolya Sorokin

## Graphic and 3D designer

I create logos, identities, posters and 3D. It will be interesting for me to help you in this and in your tasks.

I work in: illustrator, photoshop, blender, figma and ableton (sound). I have experience in prepress, as I printed a lot of my work.

I have been designing for almost 4 years.

Worked with Ukrainian agencies remotely. Was at an interview at Banda agency a week before the war. I live in Kyiv.
