The Stravinsky collage of culture and art

The Ivan Trush Lviv State College of Decorative and Applied Arts

Software

Adobe
Photoshop

Adobe
Illustrator

Hello!

I'm Ivanka, a Ukrainian graphic designer and an artist. I am currently living in Poland due to a difficult situation that has unfolded in my homeland.

I graduated from the Stravinsky collage of culture and art and soon after that I've moved to Lviv to study at the Ivan Trush Lviv State College of Decorative and Applied Arts, which I've graduated from in 2020

I have experience in teaching monumental painting, and have written various scientific papers on the topic.

Right now I'm in the process of creating an educational program for a monumental painting course

I also have a experience in digital illustration and motion design

I work with various types of illustrations, you can get acquainted with my works in my portfolio

The programs I use are: Adobe After Effects, Illustrator, Photoshop, Procreate

I will be happy to visualize your ideas and assist you in making your project look unique and vivid

I do well in time-management and handle projects punctually. I am also very meticulous when it comes to my work, I got that trait from my art education.

I will be sure to do my job well and hand my work in time.
