## EXPERIENCE

---

I did an internship at the Ukrainian Television Film Studio. They were filming a three-part docudrama called Hryhir and Hryhorii Tyutyunnyky.

As an assistant to the executive producer, I participated in the search for locations and casting of actors. On the set, I was mainly responsible for two underage actors who played the roles of little Hryhir at different ages. I also took part in the social media promotion campaign.

Also filmed an interview with a university group about a former drug addict who has come a long way and become a psychologist in this field

I currently have a certificate of internship at Polish radio
